Ms. Amy Eschberger
Colorado Division of Reclamation, Mining and Safety
313 Sherman St., Rm 215
Denver, CO 80203

Dear Ms. Eschberger,

As a property owner in the SW Hwy 115 area, I object to the application (permit M2017-049) for Transit Mix to conduct quarry operation in my neighborhood. I live in the area called Red Rock Valley Estates, which is just north to the proposed quarry site. I've been a resident there for 24 years and I have a hard time believing a company as large as TM would stoop so low in upsetting a country side neighborhood with so many homes nearby.

Their application jeopardizes the water resources in my neighborhood! If I can't get water then my property value will significantly drop. I don't know of anyone who would want that for the home they spent so much money, time, and effort working for.

Their intent causes so many concerns for the neighbors here. The application violates easement rights of property owners along Little Turkey Creek Road, where my sister and brother in-law bought their home and land for horses. The quarry would also interrupt the natural wildlife habitat, which would be a crying shame to this vast beautiful mountain area, which is so close to the city.

There will be plenty of noise due to blasting. I don't want the blasting, truck traffic noise, and the potential for flying loose rock when blasting does occur. TM's plans were downsized; however, it would be easy for them to gain approval later to expand.

I request the pre-hearing conference and MLRB bearing to be conducted in Colorado Springs.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert McCullough", written in a cursive style.
