Re: CBC Gravel Pit, Permit M-2009-030 Notice of Receipt, Technical Revision TR-1

David Cressler:

On December 12, 2017, the Division of Reclamation, Mining and Safety received your Technical Revision application **TR-1** and the required fee for the CBC Gravel Pit Permit **M-2009-030**, which is located in Dolores County. The revision requested addresses the following items:

- *Allow the importation of offsite inert fill*

While the correct Technical Revision form and corresponding fee were submitted, the affidavit included in the packet was the Agreement to Conduct Permitting by Electronic Means. In order to allow for the importation of offsite inert fill, you must submit a signed commitment that all imported material will be clean and inert, as well as being free from protruding metal objects. The agreement must also outline that the material will be placed a minimum of Three Feet below final grade. Please include examples of what type of material will be used for backfill and the potential sources of that material. This information should be received by the Division's Denver office within **30 Days** of the date of this letter. The requested agreement must be received no later than **Monday February 5, 2017**. If it is not received by that date your Technical Revision may be denied.

If you have any questions or concerns please feel free to contact me at the Division's Grand Junction Field Office, by phone at (970)-243-6368 or by email at lucas.west@state.co.us.

Sincerely,

Lucas J. West
