**Re: New Horizon North Mine (Permit No. C-2010-089)
Minor Revision No. 23 (MR-23)
Adequacy Review**

Dear Mr. Gilbreath:

The Colorado Division of Reclamation, Mining and Safety (Division) received your application for MR-23 for the New Horizon North Mine on January 4, 2018. The application was deemed complete on January 11, 2018. MR-23 is proposing revisions to Map 2.04.7-9 and Map 2.05.4(2)(e)-1 to show the final location of the CC Ditch Company 2nd Park Lateral pipeline. The Division finished its review of the MR-23 application and has the following question:

- 1) The maps submitted in MR-23 are an updated version of the maps currently being reviewed in PR-2. The maps in MR-23 cannot be approved at this time because they illustrate changes beyond the scope of a minor revision. Would you like to extend the decision date of MR-23 until the maps in PR-2 have been approved?

If you have any questions or need additional information, please contact me at (303) 866-3567 ext. 8142.

Sincerely,

Brock Bowles
