Jared,

This is in regard to an inspection report submitted on December 27, 2017 at the Vondy Gravel Pit-M-1986-105. This is to inform you that I have complied with your corrective action recommendations and have had the gravel pit re-surveyed. The gravel pit was re-surveyed on January 23, 2018 by Liebert McAtee. The missing boundary markers have been replaced per your request. I have sent a copy of the invoice from the surveying company, dated January 26, 2018. Please let me know if this will satisfy the corrective action.

Sincerely,
Jim Dilley
