RE: Gold Hill Mill; DRMS File No. M-1994-117; Decision Date Correction (AM01)

Dear Mr. Steen,

In the Division's Adequacy Review No. 1 Letter dated January 26, 2018, the decision date for the Gold Hill Mill Amendment Application was incorrectly specified as August 2, 2013. The Amendment Application was filed for review on January 4, 2018. Pursuant to Rule 1.4.6(1), the Office shall approve or deny a 110 Limited Impact application within thirty days of the date the Application is considered filed. Therefore, the initial decision date for the Amendment Application is **February 5, 2018**. Pursuant to Rule 1.4.1(9), the Applicant may request that the Office's review time be extended and the decision date reset, not to exceed 365 days from the date the Application was filed. As noted in the Adequacy Review No. 1 Letter, it is the Applicant's responsibility to request an extension of the review period. If there are outstanding issues that have not been adequately addressed prior to the end of the review period, and no extension has been requested, the Division will deny the Application.
