**Division of Reclamation
Mining and Safety**

Att: Elliott Russell,

M-1992-009 Gillette pit

We would Like to request a revert back to 32 acres on March 27, 2017 an acreage reduction of 1.28 was approved. We feel this could complicate thing by having the Potential of damage to these small areas in the working areas of the pit. We would like to keep it as a reclaimed area within the pit but not released.

Thank you for your consideration of this request.
