Hello Tess,

I appreciate the information you have provided. Our Act and Rules do not specially address EPCRA 313 chemical storage and use onsite. I would contact the EPA regarding this. The Division will be proceeding with the hearing as planned to occur during the March 21 and 22, 2018 Board Meeting.

LRM has committed to obtaining a stormwater permit and a Spill Prevention, Control and Countermeasure (SPCC) plan and we are requiring LRM to conduct groundwater quality sampling throughout the life of the operation and the Operator will be required to comply with applicable Water Quality Control Commission (WQCC) standards.

Thank you,

Jared
