**RE: Climax Molybdenum Company, Henderson Mill, Permit No. M-1977-342, Technical Revision 29, Extension Request for 3 Dam Buttress Review Period**

Dear Mr. Hays:

As recommended in your '3-Dam Buttress TR Adequacy Letter' correspondence, dated February 28, 2018, we are formally requesting a 46-day extension to the review period for Technical Revision 29. This would extend the original date for the DRMS to provide response, from Thursday March 1, 2018 to Monday April 16, 2018. Climax Molybdenum Company anticipates that we will need approximately 30 days to respond to the Adequacy Letter, which would allow two weeks for the Division to review the response, as indicated by correspondence with the DRMS on February 28, 2018.

Please let me know if you need any additional information to complete your review of this request.

Regards,

A handwritten signature in black ink that reads 'Amber Parmet'.
