Dear Ms. Eschberger,

Having worked to preserve Aiken Canyon which is next to the Hitch Rack Ranch I believe the quarry would upset the entire ecosystem in the Preserve. The blasting would negatively affect the air quality in the area both for humans and animals. In addition, the number of loaded gravel trucks which are predicted to travel on Highway 115 to and from the quarry monthly would pose a danger on a roadway that already has many fatal accidents. I oppose granting a permit to Transit Mix Concrete to mine for aggregate on Hitch Rack Ranch.

Sincerely,

Elizabeth Bevington
