**RE: Signal Reservoir No. 1 Expansion, DRMS Application No. M-2017-013
Notice of Finding the 111c Application Incomplete**

Dear Mr. Summers,

The Colorado Division of Reclamation, Mining, and Safety (Division or Office) received the above referenced application on Friday March 23, 2018. The Division has found the application to be incomplete for the purposes of considering the application “filed”. The following items will need to be submitted in order for the application to be considered complete and filed:

1. In accordance with Rule 6.3.11, please submit the documents required for Exhibit K – Terms of Governmental Contract. This may include a copy of the signed government contract or documentation verifying the necessity of a Special 111 Operations permit. As we discussed, the Division would accept documentation from the Todd Creek Village Metropolitan District’s Board that the project has been approved to proceed.
2. The application must include a fully executed financial warranty in the amount of \$2,500 per acre of affected land (a fraction of an acre is counted as one acre for calculation). The law and regulations allow for several different types of financial warranty. Please review Rule 4 of the Rules to determine what type of financial warranty you desire to use. Appropriate forms are available on the Division’s website at <http://mining.state.co.us/Forms/Pages/WarrantyForms.aspx>.

In accordance with Rule 1.4.1(8), you have sixty (60) days from the date of this letter to submit all the necessary documents that the Office needs for an application to be considered filed. If, at the end of the sixty day period, the application has not been determined to be filed with the Office, the Office may deny the application and terminate the application file. The deadline to submit the required documents is May 26, 2018.

If you have any questions feel free to contact me at (303) 866-3567, extension 8120.

Don Summers, Todd Creek Village Metropolitan District
