RE: Leyden Pit Amendment Application Extension [#M-1983-139]

Dear Mr. Cunningham:

This letter is requesting an extension on the current amendment application decision date of March 31, 2018. The extension will consist of at least 30 days, or more if the Division of Reclamation Mining and Safety deems appropriate. This extension is due to the amount of data collection required to answer the surface and groundwater concern within Adequacy Review No. 2 leaving insufficient decision time. To this date, the response to the Adequacy Review No. 2 has been submitted to the DRMS and review and approval is the next step.

Thank you,
