Dear Mr. Davis:

On March 27, 2018 the Division of Reclamation, Mining and Safety approved the Technical Revision application submitted to the Division on March 13, 2018, addressing the following:

Increase maximum disturbed area and update the reclamation plan in order to adjust the bond.

The terms of the Technical Revision No. 3 approved by the Division are hereby incorporated into Permit No. M-1983-035. All other conditions and requirements of Permit No. M-1983-035 remain in full force and effect. The Division will review this change for impacts to the financial warranty and notify you under separate cover of the new required bond.

If you have any questions, please contact me.
