**RE: Stegner Farms, DRMS Permit No. M-1999-021
Technical Revision No. 7 (TR07), Adequacy Review No. 2**

Dear Mr. Wooldridge,

The Colorado Division of Reclamation, Mining, and Safety (Division), received the above referenced Technical Revision application on March 16, 2018. The Division reviewed the application and sent you an adequacy review letter on March 26, 2018. The Division received your response to the first adequacy review letter on April 13, 2018. The following item will need to be addressed prior to the Division's approval of the application:

1. The revised reclamation plan map elevation contours are not labeled so the direction and rate of slope cannot be determined. Please revise the map and appropriately label the contour lines sufficiently so the direction and rate of slope can be determined.

You have requested an extension of the review period for the TR07 application thus waiving the thirty day decision deadline. The Division requests that you respond to this adequacy review letter by April 30th, 2018. If you have any questions feel free to contact me at (303) 866-3567, extension 8120.

Sincerely,

Jared Ebert
Environmental Protection Specialist III
