***RE: Orchard Grove Industrial Pit, Permit No. M-1990-094, Inspection Problem Abated***

Dear Mr. Parkerson:

On February 23, 2018 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. Hydrologic balance was cited as a problem because the Division did not have documentation regarding well permit or other water rights for this site. Corrective actions required that you provide the Division with such documentation by the corrective action date.

On April 13, 2018 the Division documentation regarding the well permit for this site as well as correspondence between the state and the land owner. This satisfies the corrective action and it is considered abated.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell, at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@state.co.us

Sincerely,

**Amy Yeldell**
