To: Jared Ebert &lt;jared.ebert@state.co.us&gt;

Consider this an informal update, not a regulatory report. I may have SG-11 and MW11 locations switched.

April 2018 data compared to Jan 2018 indicates the following changes:

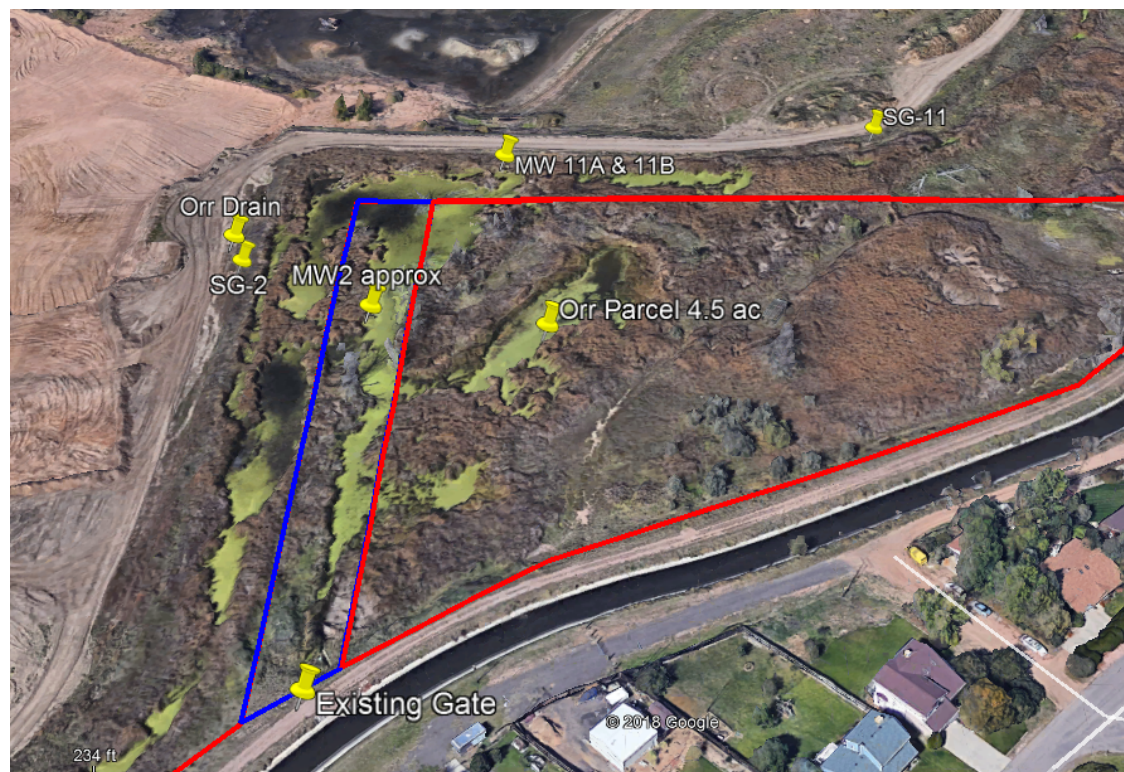

MW11A: dropped 11 inches

MW2: dropped 17 inches

SG11: dropped 17 inches

SG2 (at Orr Drain): dropped 4 feet 10 inches

I expect to see additional drops in May.
