**Re: Yoder, Permit No. M-1980-189;
Technical Revision Approval, Revision No. TR-2**

Dear Mr. Bieber:

On May 3, 2018 the Division of Reclamation, Mining and Safety approved the Technical Revision application submitted to the Division on April 5, 2018, addressing the following:

Eliminate riprap rundown, leave access road and ~50 CY material stockpile for landowner.

The terms of the Technical Revision No. 2 approved by the Division are hereby incorporated into Permit No. M-1980-189. All other conditions and requirements of Permit No. M-1980-189 remain in full force and effect. The Division has reviewed this change for impacts to the financial warranty and has determined that this change does not require an increase to the current reclamation liability.

If you have any questions, please contact me.

Sincerely,

Timothy A. Cazier
Environmental Protection Specialist
