**Re: Dollerschell Pit, Acreage Reduction Issuance, Permit No. M-1986-074, Revision No. AR-1**

Dear Mr. Schure:

On April 4, 2018, the Colorado Division of Reclamation, Mining and Safety (Division) issued a decision to approve your request for release of a portion of the permit area from further reclamation responsibility. The permit area was reduced to 29.11 acres, through the release of 2.89 acres in this permit action. Because the permit is not totally released, you are still liable for filing annual reports and fees. In addition, the Division has reduced the required surety amount to \$23,520.00, this is a reduction of \$1,780.00.

The appeal period for this acreage reduction request ended on May 4<sup>th</sup>, 2018, in accordance with Rule 4.17.2(5). An appeal of the Division's decision was not received so the decision to approval AR-01 has become final. The corrective action required by the Mined Land Reclamation Board regarding MV-2017-046 is considered abated. If you have any questions feel free to contact me at (303) 866-3567, extension 8120.

Sincerely,

Jared Ebert  
Environmental Protection Specialist III
