RE: Spor Pit, Permit No. M-1995-038, Inspection Problem Abated

Dear Mr. Marolf:

On March 27, 2018 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. An inspection problem was cited because there were multiple oil spills located on site, as well as hazardous materials with improper secondary containment. On April 26, 2018 the Division received the required documentation demonstrating compliance. This satisfies the corrective action and the problem is considered abated. No further action is necessary.

If you require additional information, or have questions or concerns, please feel free to contact me at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203, by phone at 970-243-6368 or by email at lucas.west@state.co.us.

Sincerely,

Lucas West
