

ANNUAL REPORT – SUPPLEMENTAL

DRMS Permit Number – M-2013-016

Operation Name – Orphan View Pit

Anniversary Date – May 10, 2018

In filing the 2017 annual report it was found prior reports to the Division were in error, regarding last date of mining. The new electronic filing is a check and balance of records retained on a county level. That said, the correct date this pit was mined is September of 2014 and not September 2015 as reported.
