Hi Michael.

Thank you for allowing me to meet with you today at your office. I was greatly helpful to have clarification about several of your comments referencing the Poorman mine Reclamation Permit No. M-1982-58. As discussed in our meeting today, I am formally requesting another 30 days to complete the preparation of information to provide the necessary support data to allow the comments about the Amendment to be answered.

Thank you in advance for sending me the requirements the Division of Reclamation, Mining and Safety has for completing a slope stability analysis of a waste rock pile impoundment.
