RE: Nichols Gravel Pit, Permit No. M-1981-013, Inspection Problem Abated

Dear Mr. Nichols:

On May 3, 2018 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. Signs and markers was cited as a problem for displaying incorrect information on your mine sign. Corrective actions required you submit photo documentation that a corrected sign had been posted by the corrective action date.

On June 7, 2018 the Division received photos of the corrected mine signs via email. This satisfies the corrective action and it is considered abated.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell, at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203.
