**Re: Martin Marietta Material, Inc.; Parsons Mine; Permit No. M-2009-082;  
Technical Revision No. 1 (TR-01) Adequacy Review**

Mrs. Mikulas:

The Division of Reclamation, Mining and Safety (Division/DRMS) has reviewed the content of technical revision (TR-01) for the Parsons Mine submitted on June 7, 2018 and submits the following comments. The Division is required to make an approval or denial decision no later than July 9, 2018 therefore; a response to the following adequacy review concerns should be submitted to the Division as soon as possible.

1. The financial warranty spreadsheet submitted with the technical revision indicates the acreage for Mining Phases 1A and 2 as 37.3 acres and 36.7 acres, respectively. The approved Mining Plan Map indicates Mining Phases 1A and 2 are 37.5 acres and 36.9 acres, respectively. Please explain this acreage discrepancy and update the financial warranty calculation accordingly.

Please be advised the technical revision for the Parsons Mine may be deemed inadequate, and the revision may be denied on July 9, 2018, unless the above mentioned adequacy review items are addressed to the satisfaction of the Division. If you have any questions, please contact me at [peter.hays@state.co.us](mailto:peter.hays@state.co.us) or (303) 866-3567 Ext. 8124.

Sincerely,

Peter S. Hays  
Environmental Protection Specialist

Ec: Michael Cunningham; DRMS
