Jared,

Here is a letter stating there are no prairie dog towns on the proposed permit area.

We are preparing a response to your email today regarding the comments from DWR. We are filing a SWSP that will cover all of the points in the DWR comment letter. There is nothing in the comment letter that is not easy for us to handle quickly.

Thanks,

Don

Hello Mr. Summers,

Please see the attached comment letter received from the Colorado Division of Parks and Wildlife.

Are there prairie dogs within the proposed affected area?

Mr. Jared Ebert
Colorado Division of Reclamation, Mining and Safety
RE: Signal 1 Reservoir Expansion project File No. M-2017-013

Mr. Ebert,
This is in response to the Colorado Division of Wildlife project comment dated 6-8-2018.

TCVMD has observed the proposed permit area land several times a week for the past decade. The staff has been asked directly about the presence of any prairie dogs. I was told there are no prairie dog towns at the site. The District will conduct a last check, prior to earthmoving, for prairie dog towns and will conduct a burrowing owl survey if prairie dog towns are found within the proposed affected area.

Sincerely,

Don Summers
Secretary of the Board
Todd Creek Village Metropolitan District
