Good day Tim, we request a 30 day extension on a portion of the corrective actions for the Snyder Quarry. We have graded the road and removed the exposed liner in the water pond. I will provide verification photo's within the next few days on the liner removal. We have previously sent photo's of the road repair work. However, we would like some additional time to discuss how to handle the interior pond stability with you.

We appreciate your consideration of this request.
