Dear Dustin M. Czapla:

I am writing in response to your letter in May 22,2018 about

The West End Gravel Pit #1

I have been spraying the noxious weeds with roundup and curtail in the past years

They don't seem to respond to this mixer.

I spoke with the county and they recommended using

2-4-D and milestone. I Started spraying 2-4-D and Milestone in mid. June.

For the reseeding of the vegetation I am going to reseed it again in the fall.

- Sincerely,

Bob Sutherland
