**Re: Cañon Dolomite Quarry, Permit No. M-1977-376;  
Technical Revision Approval, Revision No. TR-3**

Dear Mr. Laroche:

On July 5, 2018 the Division of Reclamation, Mining and Safety approved the Technical Revision application submitted to the Division on June 7, 2018, addressing the following:

*Revise approved seed mix & submit proposed grading plan for the Fines Disposal Area.*

The terms of the Technical Revision No. 3 approved by the Division are hereby incorporated into Permit No. M-1977-376. All other conditions and requirements of Permit No. M-1977-376 remain in full force and effect. The Division has reviewed the change associated with TR-03 for impacts to the financial warranty and has determined that this change does not require an increase to the current reclamation liability.

If you have any questions, please contact me.

Sincerely,

Timothy A. Cazier  
Environmental Protection Specialist
