Jared,

Please find the attached documents regarding ongoing groundwater monitoring at M-1980-183 Pit 29.

Let me know if there are any questions.

Joshua Oliver

Re: Pit 29 M-1980-183 Groundwater Level Monitoring

Mr. Jared Ebert:

Please find the attached MW-1, MW-2 and MW-4 quarterly readings for the Pit 29 location.

MW-4 datalogger monitoring and manual depth to groundwater monitoring continues to verify the functionality of the French drain project, which was completed in 2015 along the southern boundary of the western half of the property.

Groundwater levels in MW-1 and MW-2 are both within normal seasonal fluctuation ranges. MW- 1 and MW- 2 groundwater elevations are within 1 foot +/- of this time as compared to the last two years.

Brannan has not identified any issues during analysis of this data.

Sincerely,

A handwritten signature in blue ink that reads "Joshua" followed by a long, horizontal, slightly wavy line.
