**Re: Permit Number M-2004-031 – Hazeltine Mine
Notice of Technical Revision TR-06 Request**

Dear Mr. Orr:

As required under Mined Land Reclamation Board Order MV 2018-008 dated May 14, 2018, Aggregate Industries has filed a technical revision to the above-referenced permit and is providing you notice thereof. A copy of the technical revision request, which was mailed to you yesterday, is enclosed again herewith.

Very truly yours,

Connie N. Davis
Land Manager

**Re: Permit Number M-2004-031 – Hazeltine Mine
Technical Revision TR-06 Request**

Dear Jared:

Aggregate Industries (AI) submits this letter in response to the Division's May 14, 2018 Order MV 2018-008. Corrective Action C. specified the following:

Within 60 days of the effective date of the Board's order, the Operator shall submit a Technical Revision (with notice to Fred Orr) or an Amendment to the permit to revise the Permanent Plan for the Orr property to ensure mitigation measures for the Orr property will function year round with little maintenance. Approval of such revision shall be required within the statutory time frames. Implementation of the revised Permanent Plan shall be required within thirty (30) days of approval. During the interim, the Operator shall be required to keep the Orr property sufficiently drained.

Aggregate Industries will keep the "Orr Drain" open 365 days per year effective February 16, 2018. As noted in Tetra Tech's letter report and monitoring data, submitted to the Division June 30, 2018, water levels have declined. Keeping the Orr Drain open year-round is expected to be sufficient to ensure mitigation for the Orr property on a permanent basis.

At your earliest convenience, Aggregate Industries requests that the Division conduct an inspection of the Orr property and the Orr Drain to witness the progress that has been made in addressing this issue.

If you have any questions or require additional information regarding this technical revision

Mr. Jared Ebert, Division of Reclamation, Mining and Safety
July 9, 2018
