RE: Technical Revision (TR-09) Adequacy Review, Fairplay Au Pit, Permit File No. M-1991-037

Dear Mr. Baller,

On July 18, 2018, TR-09 was filed with the Division addressing changes to the Mining Plan of the Fairplay Au Pit, Permit No. M-1991-037. Please be advised that on August 18, 2018, the application for TR-04 may be deemed inadequate and denied unless the following adequacy items are addressed to the Division's satisfaction. Subsequent to receipt and review of the Operator's response to these items, the Division may identify additional items. Please respond to these adequacy issues with a letter summarizing each response, to the numbered items below, in a cover letter titled "Adequacy Review Response TR-09; M-1991-037".

1. Please provide details of the proposed crusher that is needed onsite. Please discuss if the crusher needs a foundation, footers, concrete blocks, etc.
2. The updated Map C-2 Mining Extents identifies it was drawn on 11/11/2016. In accordance with Rule 6.2(2)(C), please update the date this revised map was prepared.

This concludes the Division's adequacy review of TR-09. As a reminder, please be advised TR-09 may be deemed inadequate, and the request may be denied on August 18, 2018, unless the above mentioned adequacy review items are addressed to the satisfaction of the Division.

If you need additional information or have any questions, please contact me at Division of Reclamation, Mining and Safety, 1313 Sherman Street, Room 215, Denver, CO 80203, by telephone at **303-866-3567 x8132**, or by email at elliott.russell@state.co.us.
