

Imagery Date: 10/14/2017

All disturbed areas have been graded and topsoiled above the water table.

Seeding of disturbed areas was completed November 2017 and reseeded April 2018

Approximately half to $\frac{3}{4}$ of the seeded area was re-disturbed by the property owner in May 2018 with his farm equipment. Martin Marietta received a phone call after the disturbance.
