Mining and Safety

Department of Natural Resources

1313 Sherman Street, Room 215
Denver, CO 80203

MEMO TO FILE

Date: 7/24/2018

Specialist: T. Cazier

Signed: 

Subject/Operator/Operation/File No. Notification of High Grade Mill Concentrate Thickener
secondary containment spill

Type of Interaction: Meeting Phone Other

Person(s) contacted and affiliation: Justin Bills (CC&V)

Summary and Resolution of Interaction:

Mr. Bills emailed at 15:35 on 7/21/2018 (Saturday) to inform the Division that approximately 150 gallons of slurry was discharged from a moved transfer hose outside secondary containment. The portable pump was immediately shut off and cleanup actions initiated. A skid steer was used to over excavate the area impacted by the spill. Samples were collected and will be sent to an outside laboratory for analysis; DRMS will be provided the analytical results.

CC&V intends to provide the required follow-up notice pursuant to Rule 8.2.3.

Tim,

At approximately 2:00am last night (July 20), process personnel were cleaning out the secondary containment at the High Grade Mill Concentrate Thickener when a transfer pump hose moved, spilling approximately 150 gallons of slurry outside of secondary containment. The portable pump was immediately shut off and cleanup actions initiated. A skid steer was used to over excavate the area impacted by the spill. Samples were collected and will be sent to an outside laboratory for analysis; DRMS will be provided the analytical results.

This email is to provide initial notice of the spill, a written notification will be provided within 5 days in accordance with Rule 8. Please contact me with any questions you may have.

Thank you,

Justin Bills
