Dear Mr. Abraham:

Your Plan of Operations to conduct mining activities located on T. 43 N., R 4 W., sec. 2, 3, 4 and 10 and portions of T. 44 N., R. 4 W., sec. 34 and 35, New Mexico Principal Meridian, was received in this office on May 14, 2018. The Plan of Operations has been assigned Bureau of Land Management (BLM) case file number COC-79033. Please refer to this number in future correspondence concerning this operation.

Consistent with the surface management regulations at 43 CFR 3809.411(a), the BLM has reviewed the Plan of Operations to determine if it meets the content requirements at 43 CFR 3809.401(b). Based on our review, the following information is required in order for the Plan of Operations to be complete:

1. Section 2.4.1 Equipment:
 - a. Construction of drill sites is written. Are these new sites that will be constructed or are these the previously constructed sites? Please clarify this.
2. Appendix B Reclamation Cost Estimate
 - a. Please update costs to reflect current costs. Cost estimates submitted were from July 2016.

Please submit the requested additional material at your earliest convenience in order to determine if the plan is complete.

If you have any questions, please contact me at (970) 642-4940 or contact our Geologist, David Lazorchak, at (970) 642-4951.

Sincerely,

Stuart Schneider
