Fruita Loadout, C-2010-088
Adequacy Review RN1

Clayton,

I have finished my review of the Fruita Loadout permit sections that were assigned to me in the July 9, 2018 memo from Dan Hernandez. The following adequacy questions are organized by section. If you have any additional questions, please let me know.

2.04.3 – Site Description and Land Use Information

I have reviewed the site description and land use information and the information provided is adequate.

2.04.9 – Soils Information

I have reviewed the soils information and the information provided is adequate.

2.04.10 – Vegetation Information

Please update the threatened and endangered species list for the plant species that are applicable to the Fruita Loadout area.

2.04.11 – Fish and Wildlife Information

I have reviewed the fish and wildlife information and the information provided is adequate.

2.05.3(5) - Topsoil

I have reviewed the topsoil information and the information provided is adequate.

2.05.4(2)(d) – Reclamation Plan-Topsoil Plan

I have reviewed the topsoil plan and the information provided is adequate.

2.05.4(2)(e) – Reclamation Plan- Revegetation Plan

I have reviewed the revegetation plan and the information provided is adequate.

2.05.5 – Postmining Land Uses

I have reviewed the postmining land use information and the information provided is adequate.

2.05.6(2)(a) – Mitigation of Impacts of Mining, Fish and Wildlife

Please update the threatened and endangered species list for the animal species that are applicable to the Fruita Loadout area.
