RE: Sunday Mine, Permit No. M-1977-285, Inspection Problem Abated

Dear Mr. Glasier:

On March 28, 2018 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. A problem was cited due to a large stockpile of unknown material being located on the surface of the site. The corrective actions of submitting a stockpile characterization report was required by the extended due date of August 7, 2018.

On August 7, 2018 the Division received the above mentioned documentation. This satisfies the corrective action and it is considered abated. The results of the survey should be submitted no later than **Wednesday October 31, 2018**. If you have questions, concerns or need more information please feel free to contact me at the Division's Grand Junction Field Office, by phone at 970-243-6368 or by email at lucas.west@state.co.us.

Sincerely,

Lucas West
