## **OBSERVATIONS**

This inspection was conducted as part of the Division of Reclamation, Mining and Safety's (Division) normal monitoring program. A representative for the operator was not present. Photographs are included with this report in order to illustrate the conditions observed.

The Halfmoon Site is located approximately five miles southwest of Leadville and accessed from CR 11A. This is an exploration operation that was authorized to drill three boreholes. According to the operator's abandonment report the holes were drilled and reclaimed in June 2015. Pursuant to Rule 4.1.2 (2), a financial warranty is not required for this site.

This inspection confirmed that there is no unreclaimed disturbance at the site. The operator should be released from any further reclamation responsibility for the NOI.

No problems or violations were noted during this inspection.

Responses to this inspection report should be directed to Dustin Czapla at the Division of Reclamation, Mining and Safety, Grand Junction Field Office, 101 South 3<sup>rd</sup> Street, Room 301, Grand Junction, Colorado 81501, phone number (970) 243-6299.
