RE: *Lucky Strike-Mineral Hill 2018/2019 Exploration, File # P-2018-013, NOI Application Adequacy Review*

Mr. Wilkinson:

The Division of Reclamation, Mining and Safety (Division) is in the process of reviewing the above referenced NOI application in order to ensure that it adequately satisfies the requirements of the Colorado Mined Land Reclamation Act (Act) and the associated Mineral Rules and Regulations of the Colorado Mined Land Reclamation Board for Hard Rock, Metal, and Designated Mining Operations (Rules). During review of the NOI application, the Division determined that the following issue(s) of concern shall be adequately addressed before the application can be considered for approval.

1. There is potential that the drill pad disturbance areas will require reseeding. Please provide the seed mix to be used for reclamation. Please include the name and the pounds of live seed (PLS) per acre for each plant species to be used.

Please submit your response(s) to the above listed issue(s) by Friday, August 03, 2018.

The Division will continue to review your application and will contact you if additional information is needed.

If you require additional information, or have questions or concerns, please contact me at the Division's Grand Junction Field Office.

Sincerely,

Dustin Czapla
