**Re: C & D Farms No. 2, Permit No. M-1999-043;
Acreage Reduction Approval Revision No. AR-1**

Dear Mr. Lundy:

On August 27, 2018, the Colorado Division of Reclamation, Mining and Safety approved your request for release of a portion of the permit area from further reclamation responsibility.

The permit area was reduced to 8.12 acres, through the release of 0.58 acres in this permit action. The Division strongly recommends the corner post marking the original northeast permit boundary corner (labeled "M-99-43 Corner – orig." on the Post Inspection Map included in the recent inspection report dated August 27, 2018 and mailed under separate cover. This will avoid potential confusion over the approved permit boundary in the future as mining progresses.

Because the permit is not totally released, you are still liable for filing annual reports and fees.

If you have any questions, please contact me.

Sincerely,

Timothy A. Cazier
Environmental Protection Specialist
