Map Legend for Weber Pit #2 Phase 1&2

September 1, 2018

Approximately 18 acres unaffected land which will never be affected –Phase 1&2.

Approximately 22.94 acres used for a processing area in Phase 1 & 2

Approximately 7 1/2 acres that have been reclaimed except for seeding.

Approximately 4 acres in the process of reclamation, possibly finished this winter or by next spring.

The area in Yellow is being used for processing (access roads, stock piling, crushing site). We have reclaimed 7 1/2 Acres along the back wall except for seeding which hasn't been done yet due to the drought. We hope to seed this area by winter time.

Map Legend for Phase 3

Approximately one acre of land encompassing the road into Phase 3.

Approximately 15 acres that we don't expect to ever disturb.

Approximately 21 acres that were disturbed during 2016, 2017, & 2018.

Approximately 10 acres that will be disturbed during 2019.

Approximately 17.7 acres that are planned to be mined during 2020 - 2021.

Our mining encompassed an additional 8 acres during 2018 due to the depth of the formation not being as deep as expected. We plan to mine an approximately 8 acres during 2019. There are approximately 15 acres marked in green that we don't expect to ever disturb, unless the vein of rock at some point runs that way.
