RE: Nolte Pit #1, File No. M-2012-016 , Technical Revision (TR-4) Adequacy Review-2

Dear Mr. Simonson:

The Division of Reclamation Mining and Safety (Division) received a Noxious Weed Management Plan via email on August 31, 2018. Additional information needs to be submitted to address all of the initial adequacy items in the Divisions July 16, 2018 letter. Specifically #6;

Please submit a noxious weed management plan. This plan needs to identify specific species of target, method(s) for their treatment and timing of treatment(s). Furthermore the plan submitted is limited to next year only. If the permit extends beyond July of 2019, a new Noxious Weed Management Plan will need to be submitted.

Remaining adequacy items are; as-built diagrams of rip-rap structures, total straw waddle linear feet installed, stormwater feature map, a noxious weed management plan and proof of weed treatment. The decision due date for TR-4 is September 9, 2018.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@state.co.us

Sincerely,

Amy Yeldell

Nolte Pit #1 Weed Management Plan Fall 2018/Spring 2019

Outdoor Services will inspect the project area and treat all Colorado listed noxious weeds and other weeds that could negatively impact revegetation efforts. Application method will be spot spraying with backpack sprayers or ATV with 250 feet of hose. ATV will not be driven on reseeded areas.

Inspection and Treatment Schedule

October 2018

Late April 2019

Early June 2019

Mid July 2019
