**Re: Vollmer Pit, Permit No. M-1983-035;
Technical Revision Approval, Revision No. TR-5**

Dear Mr. Davis:

On September 7, 2018 the Division of Reclamation, Mining and Safety approved the Technical Revision application submitted to the Division on September 5, 2018, addressing the following:

Allow two of three berms along the perimeter of the pit to remain at the request of the new landowner.

The terms of the Technical Revision No. 5 approved by the Division are hereby incorporated into Permit No. M-1983-035. All other conditions and requirements of Permit No. M-1983-035 remain in full force and effect. The Division has reviewed this change for impacts to the financial warranty and determined no additional bond is required.

If you have any questions, please contact me.

Sincerely,

Timothy A. Cazier
Environmental Protection Specialist
