RE: Nolte Pit, Permit No. M-2012-016, Technical Revision (TR-4) Approval

Dear Mr. Simonson:

On September 10, 2018 the Division of Reclamation, Mining and Safety (Division) approved the Technical Revision request (TR-4) submitted on July 12, 2018, addressing the following:

- 1. Addition of a weed management plan*
- 2. Reclamation schedule to implement TR-3 BMP's*
- 3. As-built map depicting rip-rap channels and straw waddle placement*

To date all BMP's required under TR-3 have been installed. Only minor touch up seeding to disturbed areas remains.

The terms of the TR-4 approved by the Division are hereby incorporated into Permit No. M-2012-016. All other conditions and requirements of the permit remain in full force and effect.

Currently the Division holds a reclamation bond in the amount of \$36,250 for this site. The Division has determined this amount to be adequate.
