2018 Moores Mining LLC. Annual Report

Mining in 2017 and 2018 has continued at a steady rate all year. Mining has taken place in the northwest corner in late 2017 and early 2018 for the installation of new scales that was completed in late spring and mining since that time has been taking place west of the old scales until that area is mined out and the old scales have been removed. It is not anticipated to open up any new ground in the next year. Some areas are still waiting to plant if moisture ever happens.
