**Re: Grisenti Farms Gravel Pit, Permit No. M-2001-005;  
Technical Revision Approval, Revision No. TR-3**

Dear Mr. Laroche:

On August 14, 2018 the Division of Reclamation, Mining and Safety approved the Technical Revision application submitted to the Division on July 23, 2018, addressing the following:

*Install erosion protections along approximately 415 feet of the riverbank (Arkansas River)  
which is being eroded.*

The terms of the Technical Revision No. 3 approved by the Division are hereby incorporated into Permit No. M-2001-005. All other conditions and requirements of Permit No. M-2001-005 remain in full force and effect. The Division has reviewed the change associated with TR-03 for impacts to the financial warranty and has determined that this change does not require an increase to the current reclamation liability.

If you have any questions, please contact me.

Sincerely,

Timothy A. Cazier  
Environmental Protection Specialist
