To: "Bowles - Dnr, Brock" &lt;brock.bowles@state.co.us&gt;

Dear Mr. Bowles,

Attached, please find photographs taken of the northern portion of the GW46 Irrevocable Trust's parcel of land that lies within Elk Ridge Mining and Reclamation, LLC's Permit No. C-1981-008.

Elk Ridge Mining and Reclamation is in violation of its own Technical Revision. TR-58 states "The majority of the revegetated areas will be returned to a postmining land use of irrigated pasture including lands within the permit area which have not been disturbed, but which have had irrigation water shut off in order to better control and manage surface and ground water within the mine area during operations."

This portion of the property was irrigated prior to mining activities in 1992, **this land is within the permit area, it was not disturbed, and it had the irrigation water shut off.** The ditches area still established but are growing in from years of non use. The ditches can easily be seen from where they begin at the south end of the culvert that crosses under County Road BB.

Thank you for your consideration.

RoseAnne Guire, Trustee  
GW46 Irrevocable Trust
