**Re: Cripple Creek & Victor Mining, Co., Cresson Project, M-1980-244;
Acceptance of Record of Construction Report for VLF2 Recertification Report, Subgrade
and Geomembrane 9750' – 9900' Elevations**

Dear Mr. Schaffner:

The Division of Reclamation, Mining and Safety (Division) has reviewed your response and additional quality assurance records received via email on October 10, 2018 Record of Construction Report for VLF2 Recertification Project, Subgrade and Geomembrane 9750 – 9900' Elevations.

The explanation and testing done related to the damaged liner outside the immediate recertification area was determined to be in compliance with the approved specifications. The Certification is accepted by the Division pursuant to Rule 7.3.2 of the Mineral Rules and Regulations of The Colorado Mined Land Reclamation Board for Hard Rock, Metal, and Designated Mining Operations. CC&V may proceed with ore placement on the repaired VLF up to the 9900' elevation.

If you have any questions or need further information, please contact me at (303)866-3567 x8169.

Sincerely,

Timothy A. Cazier, P.E.
