RE: Nolte Pit #1, Permit No. M-2012-016, Inspection Problem Abated

Dear Mr. Anderson:

On June 20, 2018 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. Three inspection problems were noted; reclamation success, noxious weeds and erosion/sediment control. Since the inspection TR-4 which addressed the inspection problems has been submitted, approved and implemented. Additionally documentation of noxious weed management was received by the Division on October 15, 2018. This satisfies the corrective action and the problems are considered abated.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell, at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@state.co.us
