RE: Western Slope Flagstone Quarry #2, Permit No. M-1996-076, Inspection Problem Abated

Dear Mr. Fontanari:

On August 6, 2018 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. Signs and markers was cited as a problem for failing to delineate the permit boundary. Corrective actions required you mark the permit boundary and submit photo documentation by the corrective action date.

On October 16, 2018 the Division received photos and a narrative depicting the boundary has been marked. This satisfies the corrective action and it is considered abated.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell, at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@state.co.us

Sincerely,

Amy Yeldell
