Re: Brighton Mine, Acreage Reduction Partial Approval, Permit No. M-1977-436, Revision No. AR-1

Dear Ms. Davis:

On September 17, 2018, the Colorado Division of Reclamation, Mining and Safety approved your request for release of a portion of the permit area from further reclamation responsibility.

The permit area was reduced to 61.4 acres, through the release of 226.00 acres in this permit action. Because the permit is not totally released, you are still liable for filing annual reports and fees. This was a partial approval of the originally requested 233 acres. The Division excluded seven (7) acres that encompass the stockpile area observed during the inspection and the access road to the stockpile area from the remaining North Area.

If you have any questions, please contact me.

Sincerely,

Jared L. Ebert
Environmental Protection Specialist
