Here is the email that I sent you that I modified a bit to hopefully make it make it clearer that only entry development (that does not subside) will occur on the federal lands.

Subject: Re: Revised Exhibits 55B and 60E Oct 2018

There is no surface disturbance or subsidence effects on the 8 acres of federal coal that will only be mined to develop access entries to the longwall panel that is entirely on fee coal, so no cultural clearances are needed from the Forest Service.

Thanks Kathy.

We also had a letter from SHPO, pointing out that there is no cultural/historical survey for the ~8 federal acres you propose to affect. Can you address this with Dan and/or Catie?
