Hi Tim,

Thank you for the quick response. The estimated volume is estimated to be about 130,000 cubic feet per year. Please let me know if you have any other questions.

Thanks Katie.

I have just one follow-up question. Comment 2.a.ii requested a volume of material. The response was provided in tons (weight) and there is no density in the SDS. Please provide us with a volume. You can send it in a reply to this email.

Hi Tim,

Please see a scan of the cover letter for CCV's response to the TR 107 Preliminary Adequacy Review attached. With the figures and attachments included, it ended up being a large file to send via email, so I added it to the sharefile folder linked below.

<https://newmontmining.sharefile.com/home/shared/fo9a8d98-2366-430b-8b4e-264e77759fe4>

This was sent out in the mail today. Please let me know if you have any questions,

Thanks, Katie

Meg, Justin:

A hard copy of the attached pdf file will be sent with today's mail to Mike Schaffner.

Please contact me if you have any questions.
